

3rd Class Geography Project: Our Locality

3rd class have been very busy over the past number of weeks. During our geography lessons, we learned about the different types of homes and buildings there are and in particular the buildings that are based in our locality. We decided to recreate some of the buildings in Bailieborough town. The children worked hard together to construct and design the various buildings. The finished pieces really highlight the children's hard work, creativity and dedication to this project.
