

Our Aistear theme for December is Santa's Workshop and both the teachers and children alike have thoroughly enjoyed all the activities.

The children have been very busy practising their singing and dancing with the Junior Infant class for our Christmas assembly. 'Rocking Around the Christmas Tree' will certainly showcase all our upcoming stars on the day!

In Science the children have been using magnets in purposeful play to explore their effects on different materials.

Our Christmas Art has also commenced and the children are looking forward to displaying their work at home too.

Wishing you all a magical Christmas and a happy New Year from all of us in Senior Infants.
