

Twelve Days of Christmas

We had an extremely active December in the lead up to Christmas. All classes took on the challenge of doing daily active breaks in their class. In addition, we counted down the 12 days of Christmas to make the active breaks more exciting. So for the 12 schooldays before Christmas, 3rd class went around the school at 12 o'clock ringing bells. This represented the festive period and also reminded all

of the classes to do their active break. A successful month of active breaks was had by all.
